BUENOS AIRES EXTENSION

Buenos Aires goes way deeper than the tired "Paris of South America" cliché. Sure, it's got lively cafés spilling onto the sidewalk, a wealth of Belle Époque architecture, and grand leafy avenues leading to flowering urban parks. But Buenos Aires wouldn't be the dynamic capital city it is without the native Argentines and immigrant Portenos who call it home and make it distinctly Buenos Aires. Local passions run deep, whether it's for asado, tango, literature, art, or fashion. Paris could never.

Spend 3 Nights at the Park Tower Luxury Hotel

Culture, art, and history unite at our hotel in downtown Buenos Aires. From the clock tower at Plaza San Martín to the Rio de la Plata coastline, discover a city attuned to authentic experiences. Or explore the Puerto Madero dockside with its redbrick buildings, refined steakhouses, and the iconic Puente de la Mujer suspension bridge. Step off the ferry from Montevideo, Uruguay, and unwind with our luxury hotel's exquisite spa services. This 5-star property offers valet parking, two pools, a fitness center, and fine dining with scenic views of Alem Street in Buenos Aires.
